## Surcharge Considerations

Non-machinable surcharge applies to **LETTER-SIZED PIECES** (First-Class and Standard Mail), defined as follows:

- For pieces larger than 6" x 4 1/4", thickness is less than .009"
- Aspect ratio (length divided by height) is less than 1.3 or more than 2.5
- Has clasp, string, button closures
- Too rigid
- Has delivery address parallel to shorter dimension of piece
- Letters weighing more than 3.5 oz are considered flats
- Letter size booklets / self mailers weighing more than 3 oz are considered flats
- Exterior surface not made up of paper

<sup>1</sup>FLATS are subject to flexibility standards. Can not be too flexible or too rigid. Flat-size mail pieces must be uniformly thick so that any bumps, protrusions, or other irregularities do not cause more than 1/4-inch variance in thickness.
